Web Site Redesign

The GB Bus Group Web Site has been redesigned to make it more modern, less cluttered, easier to use and navigate. As part of the changes, out of date information has been removed from the main site and most can now be found in the Downloads section. The Photo Gallery has also been removed and we are looking for members and visitors to provide us with details of their Fotopic sites so that we can build a Fotopic links page.

Please e-mail us with your comments on the new look web site or if you want to have your Fotopic site featured here
